

The child, the heart of the matter!

- Our focus is on creating an environment where students are happy, motivated and actively engaged in learning with staff who challenge them and grow their potential.
- We want our students to be confident, literate and numerate problem solvers who communicate ideas showing leadership and Respect.
- We aim to have Inspirational students who love learning and celebrate their successes and the successes of others.

You can see from the work behind the scenes that the staff and BOT are committed to doing the best for your children.

At any stage that you feel we are not meeting your needs or your child's needs then we encourage you to see us so we can remedy any worries or concerns. Your first approach is always your child's homeroom teacher then the leader of that team and then the Principal if required.

Other updates:

- Mufti Day March 30 - Gold Coin donation for the Blood and Leukaemia Foundation. This is going to the Rakaia Fire Brigade stair climbers.
- Junior Ako Team assembly this Friday at 9.10 am just after the roll has been taken. You are invited to attend to share in the learning and successes of the Junior school.
- Thank you very much to the School Support Group for their ongoing support of the school. I attended the AGM last night and they raised a large amount of money last year with community support and grants and donated \$13200 to the school last year to support Reading, a TV and stand for Mahi Tahī, Pool Pump, Pet Day and Soccer Nets as well as wish lists for the staff.
- The School Pool will be closed this weekend for the season. Pool keys need to be returned to the office please.
